Khushi, congratulations on your admission to The University of Texas at Dallas to the Master of Science in Business Analytics and Artificial Intelligence (Cohort) program for the Fall 2025 semester!

We share your excitement as you begin this next stage in your educational career. Your program director and academic staff will be here to assist you with any questions or concerns you may have throughout the course of your program.

The next step is to accept your offer of admission by visiting *utdallas.edu/accept*, and we hope you accept it as soon as possible.

Please also note that as a graduate student, you carry certain responsibilities that may not have been present in your undergraduate experience. Be aware of the information contained in the Graduate Catalog and on the Academic Calendar. Failure to read them does not exempt you from the rules and regulations therein pertaining to your academic experience.

- As part of your degree program prerequisites, you will need to complete a one credit hour Professional Development course. Details on the course can be viewed on the Jindal School of Management page.
- Plan time to visit your Program Director to review the requirements of your degree plan and to remove your advising hold. Please plan several visits while you are a student.
- Closer to the beginning of your semester, you will receive an email with information regarding the Jindal School of Management's Graduate Orientation and Program Orientation. Please make it a priority to attend these important events. They will provide an opportunity for you to meet your program director.

Our faculty and staff look forward to assisting you during your educational journey. We are confident that your experience at UT Dallas will include a welcoming environment, an intellectual challenge and a first-rate faculty in your field of study. We have high expectations of you and know that you will find the program both challenging and rewarding. Should there be any developments that would affect your status in the program, we ask that you keep us informed.

Best Regards,

Gaurav Shekhar, Ph.D., DTM
Interim Director, MS Business Analytics Cohort Program
Naveen Jindal School of Management
